

HVAC PREVENTATIVE MAINTENANCE PLAN

According to a **U.S. Department of Energy** study on the efficiency of heating and cooling systems found that over **70% are installed incorrectly** to some degree or another, reducing efficiencies dramatically.

1 (320) 275-1246 www.GOSNAPAIR.com 24440 MN Hwy 15 Dassel, MN 55325

MEMBERSHIP BENEFITS:

1. Move to front of the line on emergency and regular service calls
2. Zero (No service call - return) fee, Mon - Fri 8:00 am to 4:30 pm
3. Weekends or after hour emergency NO OVERTIME RATE
4. 2 - year workmanship guarantee with HVAC-PM agreement (see detail)
5. 2 - year parts and labor warranty on new part installed
6. 10% discount on all other service repairs
7. 100% Money back satisfaction guarantee on PM agreement

100% SATISFACTION GUARANTEED

- ★ 100% Satisfaction Guaranteed ★
- ★ or your money back with our ★
- ★ maintenance agreement. ★

WHAT IT INCLUDES: The plan is for residential homes only!

- **Static test operation:** (air flow test) Over 70% of systems are installed incorrectly to some degree or another which can cut many years off the life of your equipment.
- **Temp rise evaluation of total system:** Checking temp rise on your equipment is like checking the temperature of your heating and cooling system operations, overheating a system can destroy heat exchangers, compressors and motors.
- **Combustion analysis:** (gas only equipment) Completing a combustion analysis to determine equipment operation of combustion flue gases to manufacture spec's, safety operations and equipment longevity.
- **Complete safety check of all components:** Testing all components for proper operations will avoid breakdowns and costly repairs.
- **Complete blower assembly (pull) and clean on indoor equipment, furnace or air handler:** Keeping your blower assembly clean will enhance efficiencies, increase air flow and increase longevity of motors and capacitors.
